PRODUCT DESCRIPTION

The Dog Agility Course is designed to meet the training and play needs of our beloved dogs. The course provides them with the opportunity to acquire new skills, fulfill their play instincts, and burn off excess energy in a safe environment, which reduces their aggressiveness. It fosters socialization with dogs and strengthens the bond between them and us. The outdoor dog training equipment is designed to cater to dogs of all sizes. It can be used either individually or as part of the full course.

The goal is for our friend to follow their owner's instructions while passing through the tunnel without making eye contact with their owner.
