Safety Area	●	3m ²
Safety Dimension	●	118cm x 230cm
Maximum Height	●	150cm
Weight	●	kg
Safety Certificate	●	EN 1176-1

PRODUCT DESCRIPTION

Play Panels are educational and teaching game panels designed for children to acquire and reinforce general motor skills such as perceptual and movement development, cognitive development, emotional development, and language development; providing attractive and stimulating activities for children in this regard. They strengthen children's perception of colors and shapes. They encourage them to experiment and enhance their creativity. They trigger their desire to collaborate with other children. They bring children's imaginations together on different planes. All these elements ensure that children's early intellectual development is comprehensively stimulated. The entertaining teaching of play panels increases children's demands for learning.
